

```
public class Node{
    Node(Comparable theElement){
        this(theElement, null, null);
    }
    Node(Comparable theElement, Node lt, Node rt){
        data = theElement;
        left = lt;
        right = rt;
    }
    Comparable data;
    Node left;
    Node right;
    int height;
}
```
